Subject: Universal Healthcare – Short and Simple

Dear [Senator/Representative] [Last Name],

I am a constituent in [City], and I am writing to ask you to support a serious path to Universal Healthcare in the United States. Coverage that is automatic, portable, and affordable, so no one loses care because of a job change, paperwork, or a medical crisis. Right now, families are paying in every direction: premiums, deductibles, copays, surprise bills, and medical debt. Even people who are "insured" often delay care because they cannot afford to use the coverage they have. That is not a stable or moral foundation for a healthy society or a competitive economy.

I am asking you to support legislation that:

1. Guarantees coverage with no gaps and no "churn".
2. Protects families with meaningful caps on out-of-pocket costs.
3. Cuts administrative waste and speeds up care (fewer delays, denials, and bureaucracy).
4. Lowers prescription drug costs.
5. Strengthens primary care, mental health, and rural access so coverage equals access.

Please let me know: Will you support and advance Universal Healthcare legislation that meets these principles? I would appreciate a clear response.

Respectfully,
